In a bid to emphasize its support for improved nursing education in Sierra Leone the Faculty of nursing was alsovisited.

The Secretary -General is seen sensitizing students about the Association in their classroom at the Faculty.

The executive of the SLNA will also visit other nursing institutions in the not distant future.

Connaught hospital—was also visited and the executive had a brief meeting with cross section of staff members.

At the Connaught hospital nurses were informed of monitoring team that will be set up to monitor absenteeism of both day and night shift. Despite there many grievances they were encouraged to maintain standards until negotiations are made to address such issues.

Questions from staff were satisfactory answered and concerns documented.

At this hospital and various others the different cadres of nurses being trained in Sierra Leone namely:

- Bachelor of Nursing (Hons) (BSc)
- Nurse Tutor (RNT)
- Registered Midwives (RM)
- Anaesthetic Nursing (AN)
- Registered Nursing (RN)
- Ophthalmic Nursing (ON)
- State Enrolled Community Health Nursing (SECHN)
- Maternal and Child Health Aides (MCH Aide)
- Nursing Aides

Presently, there is only 1 recognized training institution for BSc Nursing, ON, AN, RNT, 2 for RN, 10 for SECHN, 2 for Midwifery and 13 for MCH Aide training.
